

Caso nunca tenha sido carregado nenhum plugin externo no Autocad é muito provável que o Windows bloqueia o carregamento e receba um erro assim ao tentar carregar o plugin:

```
attempt was made to load an assembly from a network location which would have caused the assembly to be
sandboxed in previous versions of the .NET Framework. This release of the .NET Framework does not
enable CAS policy by default, so this load may be dangerous. If this load is not intended to sandbox
the assembly, please enable the loadFromRemoteSources switch. See http://go.microsoft.com/fwlink/?
LinkId=155569 for more information.
   at System.Reflection.RuntimeAssembly._nLoad(AssemblyName fileName, String codeBase, Evidence
assemblySecurity, RuntimeAssembly locationHint, StackCrawlMark& stackMark, IntPtr pPrivHostBinder,
Boolean throwOnFileNotFound, Boolean forIntrospection, Boolean suppressSecurityChecks)
   at System.Reflection.RuntimeAssembly.InternalLoadAssemblyName(AssemblyName assemblyRef, Evidence
assemblySecurity, RuntimeAssembly reqAssembly, StackCrawlMark& stackMark, IntPtr pPrivHostBinder,
Boolean throwOnFileNotFound, Boolean forIntrospection, Boolean suppressSecurityChecks)
   at System.Reflection.RuntimeAssembly.InternalLoadFrom(String assemblyFile, Evidence
securityEvidence, Byte[] hashValue, AssemblyHashAlgorithm hashAlgorithm, Boolean forIntrospection,
Boolean suppressSecurityChecks, StackCrawlMark& stackMark)
   at System.Reflection.Assembly.LoadFrom(String assemblyFile)
   at Autodesk.AutoCAD.Runtime.ExtensionLoader.Load(String fileName)
   at loadmgd()
```

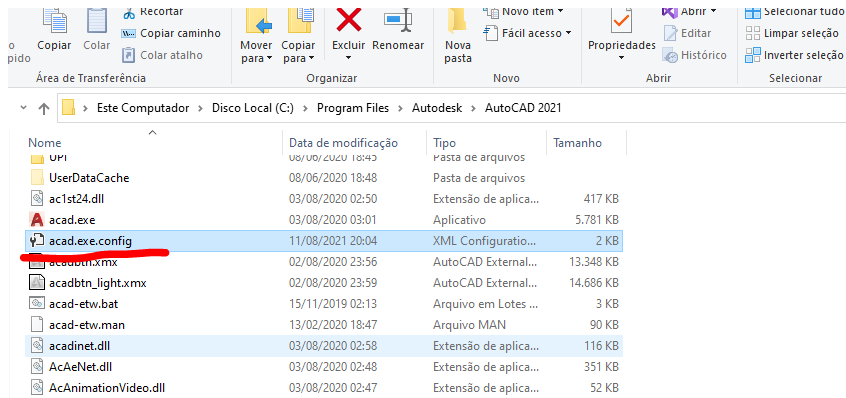

Primeiro passo é com o Autocad fechado, clicar com o botão direito no arquivo “CoronaCad2.dll” com o botão direito, ir em Propriedades e marcar o “Desbloquear”:

Pode ser que apenas isso resolva. Então abra o Autocad e tente carregar novamente.

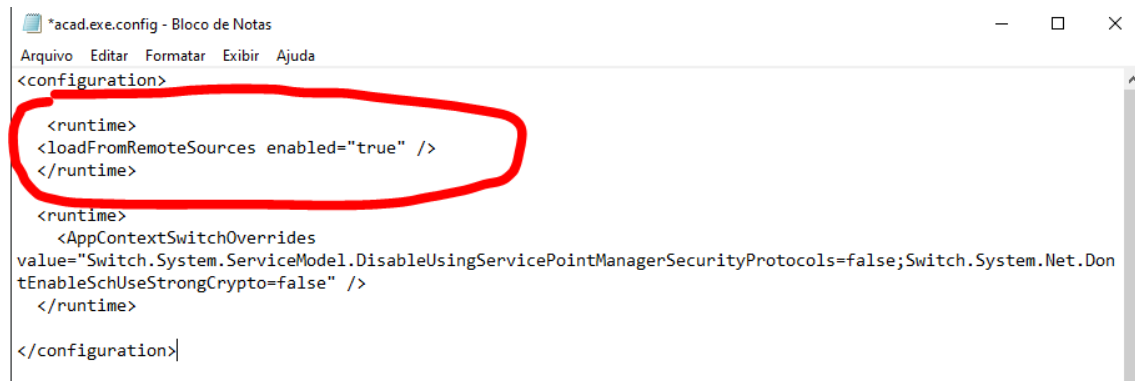

Caso não resolva tem outro passo.

Procure a pasta de instalação do Autocad, geralmente está em “C:\Program Files\Autodesk\AutoCAD 20XX” e procure pelo arquivo “acad.exe.config”:

Abra o arquivo no bloco de notas e insira logo abaixo do primeiro <configuration>:

```
<runtime>  
<loadFromRemoteSources enabled="true"/>  
</runtime>
```

Salve e feche o bloco de notas.

Abra novamente o Autocad e tente carregar o Plugin novamente com o comando "NETLOAD".
